Keiichiro Aoki
President of JK Holdings

Message from the President of JK Holdings

The JK Holdings Group, with a corporate philosophy of "Creating a Comfortable & Rich Living Environment," is engaged in a diverse range of businesses encompassing the housing industry, including building materials wholesaling, manufacturing, retailing, and construction.

We always update the lineup of building materials to our customers to make sure they can catch up with the trend of housing needs, and we will supply the newest materials whenever the customer needs them.

We also contribute to improving the "environment" of the industry by providing management know-how and producing complicated paperwork on behalf of housing companies and dealers.

Going forward, we will be even more proactive in ad-

ressing various sustainability-related issues to ensure the sustainable growth of the company and create medium- to long-term corporate value. In particular, we intend to focus on promoting "use of timber in buildings" which will attract public attention as we work to achieve a carbon neutrality by 2050.

We believe that "use of timber in buildings" will contribute to the prevention of global warming.

While strengthening our business centered on the utilization of forest resources, we will also focus on strengthening cooperation among group companies and promoting diversity to transform what we have into something new and better.

We hope you will look forward to the further progress of our group.

Sustainability

What we do is **utilize natural resources.**

We will actively address various ways to achieve sustainable growth of the company and create medium- to long-term corporate value.

Basic Policy for Sustainability Promotion

JK Holdings Group regards the entire planet as a "home" and aims to create comfortable homes and rich lifestyle under the corporate philosophy of "Creating a Comfortable & Rich Living Environment". We aim to create a prosperous future for people, society, and the Earth, aiming for the coexistence of people and nature in a recycling-oriented society that nurtures forests and makes the most of trees through our business centered on the utilization of forest resources. We will contribute to the creation of towns that bring smiles to people through business activities by stable supply of building materials, plywood manufacturing, lumber processing

and proposal of lifestyles. At the same time, we will strengthen cooperation among group companies and further promote diversity. Never forgetting that "A company is stand on people, and people are stand on the heart," we will make our employees, business partners, customers, and all other people involved in "housing" happy. We will formulate individual policies on material issues related to sustainability (materiality) that address each of the ESG and SDGs issues, and actively and proactively address them in order to achieve sustainable growth of the company and create medium- to long-term corporate value.

Information Disclosure Based on TCFD Recommendations

The JK Holdings Group has expressed its support for the recommendations of the Task Force on Climate-related Financial Disclosures (TCFD). Based on the TCFD recommendations, we will continue to analyze the impact of climate change on our business and enhance our information disclosure.

SDGs Initiatives

The JK Holdings Group is working to solve many of the issues prevalent in modern society through participation in the SDGs, which aim to build a sustainable society. As a company that utilizes the earth's resources in our daily activities, we contribute to the development of people, nature, and the economy with the future of the earth in mind.

JK Holdings' Materiality

The world's environmental destruction is causing the serious depletion of natural resources, which is causing economic decline and other adverse effects that are unsustainable in the long run. In response to the growing global demand for sustainability, we have formulated JK Holdings' Materiality to contribute to the creation of a sustainable social environment by 2030 by further strengthening the social role of each group company in its business activities, with the aim of resolving long-term issues involving the environment, people, and society. We have formulated the JK Holdings' materiality to contribute to the creation of a sustainable social environment by 2030.

Together with the Earth

Consideration of global environmental issues such as climate change, risk management for natural disasters.

Together with people

Consideration for employees' health and working environment, fair and appropriate treatment, and respect for human rights.

Together with society

Responding to demographic change properly and maintain fair deals with customers and suppliers.

The Overseas Business Activities

JK Holdings Co., Ltd. has overseas affiliated companies and representative offices at 12 locations in 8 countries worldwide.

We would like to contribute to the global housing and construction industries through our business activities such as connecting Japanese excellent products with abroad, as well as connecting abroad among them. By developing products including wood, building materials, and housing equipment, which will help creating better living spaces, we would like to supply the best products that meet the needs of world-wide users.
